

SP μ Level 10

Levelling Starter Package

Components of the **Levelling Starter Package**

SP μ Level 10 (BG 840100)

μ Level precision electronic spirit level (BT 840100)

The precise alignment of machines is an important part of the Quality Management process. Especially in the tool machinery market precision down to a μ m is required. The new μ Level system is an easy to handle yet very precise system for the measurements of straightness and parallelism.

You can use it as a stand alone instrument or in combination with software which guides you through the steps and then documents the results. You can also use two μ levels at the same time. Where one of them serves as a continuous reference.

You can also store the measurements in the unit and connect it to the software afterwards.

Case for μ Level, with foam inlay (BT 840110)

The rugged Case contains the following:

- 1 x BT 840100: μ Level, without Bluetooth
- 1 x BT 840120: Foam Inlay for μ Level case
